The recommended amount is more than 3 days. Thus, if the cost of the manor are 10,000,000 daily Aden, then insert into lattice bank at least 30,000,000 Aden.

After the NPC Chamberlain click on "Manage Manor" and click "Edit Seed Setup".

The procedure is the same for all seed. Mark item called Seed, click on Edit Sales, then fill in the table and put Confirm (Sale Next Limit is the maximum amount possible offer for sale). Bottom right (next purchase) to see how Aden will be earning if they sell all the Seed. After completing all the required settings Seed confirm with Confirm (bottom right)

Crops setting is identical with settings Seed, with the only difference that it is possible to choose the material which will be sold as fruits (item Next Reward - 1 or 2). Next Buy Limit is the maximum amount Crops that can be set. After filling the table once again confirm the settings by pressing Confirm (bottom right). Award for Crops can be seen at the bottom left (Next purchase). This amount will be deducted Aden every morning at 6:00 from the lattice bank. To set - change the selected Crops, use the Change button items.

if you were successful (that is agile enough) will appear in the inventory of the material and deducted Adena, as the cost per transaction. It should pay attention to the type of purchased material, since it is possible to set two types of materials.

Thus, when Rune King buys Coba offers for this Metallic Thread, mostly we sell about Goddard, for example, offering Durable Metal Plate (just an example, it may be upside down or completely different).

Fruits (Crops) can be sold all over the world, but would depend on where you are. Therefore when you stand quietly in Gludin, sell Crops in town Goddard.
